TO-BE
Proposed architecture
Data consumption
Data Enginner
Analytical Enginner
Data / Financial / Product Analyst
Builds and maintains the data pipeline and infrastructure
Transaction DB
User/Wallet DB
Merchant DB
Pandas
Data Ingestion
Batches
Snowflake Warehouse
Raw data layer
Handles compute & storage
dbt
Raw layer transformation
modeling, testing, and documentation
Silver layer - Cleaned dataset
Gold layer - Aggregated business ready dataset
Visualization
Reporting
Business insights
GitHub
Versioning & Collaboration
